Correction to: Arch Virol (2017) 162:2913–2917
<https://doi.org/10.1007/s00705-017-3430-1>

Because *Sclerotium hydrophilum* virus 1 (Accession number: KU886558 and KU886559) in Genebank was not approved and named as a species of virus by reviewer in paper in *Virus Genes* (<https://doi.org/10.1007/s11262-016-1375-1>), *Sclerotium hydrophilum* virus 2 in Genebank (Accession number: KX760093 and KX760094) was approved as a species of virus by reviewer in the paper named “Sequence analysis of double-strand RNA6 and RNA9 from the fungus *Sclerotium hydrophilum*” in *Archives of Virology*, and misunderstood by us and tentatively named the putative virus “*Sclerotium hydrophilum* virus 1”. At present, the virus name in the paper in *Archives of Virology* is not consistent with the virus name in Genebank. But the virus name cannot be corrected in Genebank.

Hence, the virus name “*Sclerotium hydrophilum* virus 1” is corrected as “*Sclerotium hydrophilum* virus 2”
