Erratum

Determination of the Dissociation Constants of Urocanic Acid Isomers in Aqueous Solutions

Pekka Juusola, Pentti Minkkinen, Lasse Leino, and **Jarmo K. Laihia**
Monatsh Chem 138: 951–965 (2007)

On page 956 the heading of Table 5 should be as follows:

Table 5. Ion parameters for the *Hückel* Eq. (2), at 25 and 37°C and results of the regression analysis obtained by Eq. (24) from the titration data shown in Fig. 4

and on page 958 Eqs. (19–21) should be corrected as shown below.

$$m_{\mathrm{H,j}}(j=1) = h_{\mathrm{i}} - \frac{f(h_{\mathrm{i}})}{f'(h_{\mathrm{i}})} \tag{19}$$

$$\begin{aligned}
f(m_{\mathrm{H,i}}(j)) &= (m_{\mathrm{H,i}}(j-1))^4 + (K_{\mathrm{m1}}m^{\mathrm{o}} + m_{\mathrm{b,i}} + n_{\mathrm{t}}/w_{1,\mathrm{i}})(m_{\mathrm{H,i}}(j-1))^3 \\
&+ (K_{\mathrm{m1}}K_{\mathrm{m2}}(m^{\mathrm{o}})^2 + K_{\mathrm{m1}}m_{\mathrm{b,i}}m^{\mathrm{o}} - K_{\mathrm{a,w}}(m^{\mathrm{o}})^2/g_{\mathrm{w}})(m_{\mathrm{H,i}}(j-1))^2 \\
&+ (K_{\mathrm{m1}}K_{\mathrm{m2}}m_{\mathrm{b,i}}(m^{\mathrm{o}})^2 - K_{\mathrm{m1}}K_{\mathrm{m2}}(n_{\mathrm{t}}/w_{1,\mathrm{i}})(m^{\mathrm{o}})^2 \\
&- K_{m1}K_{\mathrm{a,w}}(m^{\mathrm{o}})^3/g_{\mathrm{w}})(m_{\mathrm{H,i}}(j-1)) - K_{\mathrm{m1}}K_{\mathrm{m2}}K_{\mathrm{a,w}}(m^{\mathrm{o}})^4/g_{\mathrm{w}}
\end{aligned} \tag{20}$$

$$m_{\mathrm{H,i}}(j) = m_{\mathrm{H,i}}(j-1) - \frac{f(m_{\mathrm{H,i}}(j))}{f(m_{\mathrm{H,i}}(j))} \tag{21}$$
