Review and perspective in mechanics

Published online: 5 March 2015
© Springer-Verlag Wien 2015

Over the last 50 years, Acta Mechanica has been one of the leading journals in the field of theoretical and applied mechanics. It has published a broad range of articles in both traditional and emerging fields, but our focus is always on the forefront of new development. After this half a century, the Editors have decided that it is time to start a new section of the journal: *Review and Perspective in Mechanics*, with two articles per year. Authors of these special articles are invited by the Editors. It is anticipated that each new contribution will provide a coherent review on a topic of some broad interests, highlight new methodologies, and depict a vivid image on the current state-of-the-art and future directions of research. In this way, we hope that Acta Mechanica could better serve the broader mechanics community and also help make new contributions to the general discipline of mechanics.

N. Aksel
Lehrstuhl Technische Mechanik und Strömungsmechanik, Universität Bayreuth,
Universitätsstraße 30, 95447 Bayreuth, Germany

H. Irschik
Institut für Technische Mechanik, Johannes Kepler Universität,
Altenbergerstraße 69, 4040 Linz-Auhof, Austria

A. Soldati (✉)
Department of Electrical, Managerial and Mechanical Engineering, University of Udine,
Via delle Scienze 208, 33100 Udine, Italy
