Correction to: European Child & Adolescent Psychiatry
<https://doi.org/10.1007/s00787-018-1153-9>

In the original publication, under the discussion section, the prevalence of recurrent rumination behavior is stated as 2.94% as opposed to the correct 1.49% described in the abstract and the results.

The original article can be found online at <https://doi.org/10.1007/s00787-018-1153-9>.
