<https://doi.org/10.1007/s10040-018-1869-0>

The original version of this article unfortunately contained a misprint. Equation 8 was written incorrectly. The correct form of this equation is as follows:

$$\begin{cases} A_{1,k} = G_k[x(t), y(t)] \\ A_{2,k} = G_k\left[x(t) + \frac{\Delta t}{2}A_{1,1}, y(t) + \frac{\Delta t}{2}A_{1,2}\right] \\ A_{3,k} = G_k\left[x(t) + \frac{\Delta t}{2}A_{2,1}, y(t) + \frac{\Delta t}{2}A_{2,2}\right] \\ A_{4,k} = G_k\left[x(t) + \Delta t A_{3,1}, y(t) + \Delta t A_{3,2}\right] \end{cases}, \quad k = 1, 2 \quad (8)$$

All computations presented in this article were made using the correct form of eq. 8 and are not affected by this misprint.

The online version of the original article can be found at <https://doi.org/10.1007/s10040-018-1869-0>
