Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.

In the Original publication of the article, the second author name was incorrectly published as Cornelius G. van Reenen, the correct name should read as Cornelis G. van Reenen. This has been corrected in this paper. In addition, at the end of the abstract, it is written “We conclude that using an air puff as punisher led to the most sensitive, yet non-repeatable—BT for dairy cows”. The correct should read as; “We conclude that using an air puff as punisher led to the most sensitive, yet non-repeatable, JBT for dairy cows”. This has been corrected here.

The original article can be found online at <https://doi.org/10.1007/s10071-021-01563-8>.
