Correction to:
Clean Technologies and Environmental Policy
<https://doi.org/10.1007/s10098-023-02695-w>

In the original publication of the article, an additional piece of information "*R*-Value ($\text{m}^2 \text{K/W}$): 11.9" was mistakenly included with the entry "Wall" under the heading "Building elements" in Table 1. It should be removed from the table.

The updated version of Table 1 with the correct information is provided in this correction.

The original article has been corrected.

Table 1 Building components and their value

Building elements	<i>R</i> -value ($\text{m}^2 \text{K/W}$)	<i>U</i> -value ($\text{W/m}^2 \text{K}$)
Roof	6.84	0.14
Wall	2.142	0.4668
Glazing	0.3096	3.23
Glazing Solar Heat Gain Coefficient (SHGC)=0.64		
Heating set point ($^{\circ}\text{C}$)=21.11		
Heating set back ($^{\circ}\text{C}$): 15		
Cooling set point ($^{\circ}\text{C}$): 23.33		
Cooling set back ($^{\circ}\text{C}$): 28.88
