The authors regret that one of the author names in the original article appears incorrectly.

In addition, they also found another mistake that appeared in the original article:

Line 177–179:

“While certain authors [44, 81, 92] reported CSF leakage as cases that required surgical revision or CSF shunting, others [102] [110] did not specify the treatment for CSF leakage.”

Was incorrectly shown in the final published article as:

“While certain authors [44, 81, 92] reported CSF leakage asincisional leak and fcases that required surgical revision or CSF shunting, others [102] [110] did not specify the treatment for CSF leakage.”

The original article has been corrected.
