In the original publication of the article, the author found errors in the values under the title “Chapter 7: Complications”. The corrected text is given below:

According to the questionnaire survey results that were performed for the publication of this book, among 15,657 kidney biopsy cases that were performed in Japan, gross hematuria after kidney biopsy was found in 431 patients (2.8%), bladder wash was in 56 cases (0.4%), red blood cell transfusion was in 121 cases (0.8%), renal arterial

embolization was in 31 cases (0.2%), and death occurred in one case (0.006%).

Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
