Correction to: Found Comput Math

<https://doi.org/10.1007/s10208-018-9373-4>

In the published article, Figure 5 corresponds to an eigenfunction associated not with the first smallest positive eigenvalue. A correct eigenfunction of the latter is depicted in Fig. 1 here. Note that this eigenfunction is axisymmetric, as can be seen from Fig. 2 where its radial, azimuthal and vertical components are plotted on different meridian sections.

Acknowledgements The authors thank Monique Dauge for pointing out that the eigenfunction corresponding to the smallest positive eigenvalue is axisymmetric.

The original article can be found online at <https://doi.org/10.1007/s10208-018-9373-4>.
