Fig. 2 Distribution of *Christensenia*. **a** Distribution record (red dots) as given in Table S1. Records plotted had either latitude/longitude information provided or were geo-referenced based on the available occurrence information. Duplicated occurrences were deleted. **b** Polygonal plot used to assess the IUCN category of *Christensenia* as least concern or near threatened (LC or NT) according to the criterion B based on extent of occurrence (EOO) and area of occupancy (AOO)
