Correction to: *Journal of Plant Research*
<https://doi.org/10.1007/s10265-021-01289-1>

In the original publication of the article, under the discussion section, the following sentence “taxa to accumulate a larger fraction of leaf dry mass before the arrival of the rainy season (LmRS).” was separated from the previous sentence and published as two paragraphs.

The complete sentence should read as follows, “Earlier leafing also allows deciduous taxa to accumulate a larger fraction of leaf dry mass before the arrival of the rainy season (LmRS).”.

The original article was updated.
