**Erratum to: Primates**  
**DOI 10.1007/s10329-016-0545-z**

The authors would like to correct the error in the publication of the original article. The correction detail is given below for your reading:

In the “Methods” section, the second sentence beneath the heading “Field observations and data collection” should read as

In the mangroves of Rego do Duarte, groups of *S. sciureus* comprised of about 20 individuals were observed feeding, often forming mixed-species groups with tufted capuchin (*Sapajus apella*).
