**Correction to: Chromatographia**  
<https://doi.org/10.1007/s10337-020-03884-1>

In the original publication, the phrase “Liquid phase” in Table 1 column 1 was included in the wrong line. The phrase needs to be included in row 13 in front of LPME.

In reference No. 25, the correct spelling is “n-Hexane in air samples”. The original publication of the article has been updated to reflect the change.

**Publisher’s Note** Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
