Retraction Note to: Triggering mechanism and deformation characteristics of a reactivated ancient landslide, Sichuan Province, China

Retraction Note to: Landslides (2019) 16:383–393

<https://doi.org/10.1007/s10346-018-1111-0>

The authors have retracted this article [1] because they did not have permission to publish most of the figures and data in this article, including the field images of whole landslides (Figures 2, 4 and 5), images and measurements of source area, landslide deposits and slip surfaces (Figures 6, 7, 8, 10 and 11), and all monitoring data (Figures 9, 12, 13, 14 and 15, and Table 1). All authors agree to this retraction.
