In the original publication of the article, three equations under section “Assessment of economic performances” were published incorrectly. The corrected equations are given below:

- The annual income from cocoa: $CI = yC * pC$,
- The annual income from fruits: $OPI = \sum_{i=1}^{NbPS} yOPS_i * pOP_i$,

- The value of self-consumption: $VDC = \sum_{i=1}^{NbPC} yOPC_i * pOP_i$,

The original article has been corrected.
