

SESSIONS OF THE SEMINAR “ALGEBRA i LOGIKA”

1596th session. March 3, 2009

V. G. Puzarenko, A semilattice of numberings.

1597th session. March 4, 2009

A. T. Gainov, Monocomposition algebras.

1598th session. March 17, 2009

A. M. Nurakunov (Bishkek, Kirgizia), Quasivariety lattices with a nondenumerable set of sublattices.

A. M. Staroletov, Groups isospectral to an alternating group of degree 10.

1599th session. March 25, 2009

A. S. Morozov, Some issues in computability over real numbers.

1600th session. April 7, 2009

E. I. Timoshenko, Partially commutative metabelian groups: universal equivalence and the associator of a commutant.

1601st session. April 14, 2009

M. V. Zubkov (Kazan), Strongly η -presentable sets and degrees.

M. M. Yamaleev (Kazan), Structural properties of degrees in the Ershov hierarchy.

1602nd session. April 21, 2009

A. V. Karpenko and L. L. Maksimova, Simple weakly transitive modal algebras.

A. T. Nurtazin (Alma-Ata, Kazakhstan), Strong reducibility and reproducibility of a theory over a formula. Compactness theorem.

1603th session. April 28, 2009

P. E. Alaev, Autostability of Boolean algebras in atomic-ideal enrichments.

F. A. Dudkin, Subgroups of finite index in Baumslag–Solitar groups.

1604th session. May 5, 2009

M. N. Leontieva, Decidability of Boolean algebras of elementary characteristic $(1, 0, 1)$.

1605th session. May 12, 2009

V. N. Zhelyabin, Simple Jordan superalgebras arising from associative commutative differential algebras.

1606th session. May 19, 2009

A. G. Myasnokov (Montreal, Canada) and N. S. Romanovskii, Universal theories for rigid soluble groups.

1607th session. June 2, 2009

Yu. L. Ershov, Subfields of the ring of adeles.

S. A. Drobyshevich and S. P. Odintsov, An extensive logic with constructive negation.
