RETRACTED ARTICLE: Forecasting carbon emissions future prices using the machine learning methods

Umer Shahzad[1] · **Tuhin Sengupta[2]** · **Amar Rao[3]** · **Lianbiao Cui[1,4]**

The Editor-in-Chief and the publisher have retracted this article. The article was submitted to be part of a guest-edited issue. An investigation by the publisher found a number of articles, including this one, with a number of concerns, including but not limited to compromised editorial handling and peer review process, inappropriate or irrelevant references or not being in scope of the journal or guest-edited issue. Based on the investigation's findings the Editor-in-Chief therefore no longer has confidence in the results and conclusions of this article.

Lianbiao Cui did not explicitly state whether they agree or disagree with this retraction. The remaining authors disagree with this retraction.

The online version of this article contains the full text of the retracted article as Supplementary Information.

Supplementary Information The online version contains supplementary material available at https://doi.org/10.1007/s10479-023-05188-7.

Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
