Subsequent to the publication of the above paper it has been brought to our attention that the name proposed for the taxon represented by strains XD46^T, YJ-63-S1 and ZS-1-H is not grammatically correct as “*Salinarubrum*” should have been proposed as *Salinirubrum*. We here propose the corrected name for the taxon represented by strain XD46^T.

Description of *Salinirubrum* gen. nov.

Salinirubrum (Sa.li.ni.ru'brum. L. fem. pl. n. *salinae* salterns, salt works; L. neut. adj. *rubrum* red; M.L.

neut. n. *Salinirubrum* the red archaeon from salt works).

The description of the genus is as given for *Salinarubrum* in Cui and Qiu (2014) Antonie van Leeuwenhoek 105:135–141.

The type species is *Salinirubrum litoreum*.

Description of *Salinirubrum litoreum*

Salinirubrum litoreum (li.to're.um. L. neut. adj. *litor-eum*, of or belonging to the sea-shore).

The description of the species is as given for *Salinarubrum litoreum* in Cui and Qiu (2014) Antonie van Leeuwenhoek 105:135–141. The type strain is XD46^T (=CGMCC 1.12237^T = JCM 18649^T).
