Correction to:

Antonie van Leeuwenhoek (2021) 114:497–506
<https://doi.org/10.1007/s10482-021-01531-9>

In the original publication of the article, the name that we proposed for the novel species is malformed as it contravenes Rule 12c (1) of the ICNP. The correct name should be “*Altererythrobacter flavus*” across the paper, and this name becomes a heterotypic synonym of *Altererythrobacter flavus* Ma et al. 2018 (DOI <https://doi.org/10.1099/ijsem.0.002822>). *Altererythrobacter flavus* Ma et al. 2018 is a homotypic synonym of *Tsuneonella flava* (Ma et al. 2018) Xu et al. 2020 (DOI <https://doi.org/10.1099/ijsem.0.004293>).

In the section of species description, the sentence “*Altererythrobacter flava* (fla’va L. fem. adj. *flava*, yellow, referring to the colony colour of the type strain)” should be replaced as “*Altererythrobacter flavus* (fla’vus. L. masc. adj. *flavus*, yellow, referring to the colony colour of the type strain)”.

Publisher’s Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.

The original article can be found online at <https://doi.org/10.1007/s10482-021-01531-9>.
