Errata

Bentley, H. L. and Herrlich, H.: Merotopological spaces, *Applied Categorical Structures* **12** (2004), 155–180.

(1) In the proof of Proposition 14, the equation $v_j^{-1}V = U$ should be $U \subset v_j^{-1}V$, and the equation $v_i^{-1}V = X_i$ should be $X_i \subset v_i^{-1}V$.

(2) In Lemma 19.5, the "wedge" $\wedge$ should be a "vee" $\vee$.

(3) In Proposition 22, "merotopic" should be "merotopological".

    In (1), the equality fails (in general) because the emptyset might be a possiblity.
