**Correction to: *Astrophys Space Sci* (2020) 365:41**  
<https://doi.org/10.1007/s10509-020-3748-0>

In the **Discussion** section of the initial online publication an incorrect percentage was specified for the observed contribution of the hard X-ray tail in the middle and upper flaring branch to the total flux of 3.0–80.0 keV. The original article has been corrected.

**Publisher's Note** Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
