

# Correction to the article “Transmembrane Protease TMPRSS4 Promotes the Formation and Development of Mismatch Repair Deficient Colon Cancer Liver Metastasis,”

by Y. S. Yang, D. Wen & X. F. Zhao, Vol. 171, No. 2, pp. 242-246, June 2021

The Figure 1 should be:

**Fig. 1.** Gross view (a, c) and light microscopy (b, d) of the liver from the control and experimental BALB/c nude mice with MMR-deficient CRC with liver metastases. b, d) The maximum concentrations of cancer cells is observed at the bottom left and in the middle part of the section, respectively. e) Quantitative assessment of liver metastases. \* $p < 0.001$  in comparison with the control.
