The original version of this article unfortunately contained the following mistakes.

1. In Fig. 3B, the path coefficients on both the left and right paths (i.e., paths from  $\ln OR$  to  $\gamma$ , and from  $\beta_L$  to  $\beta$ ) should be  $\sqrt{2f(1-f)}$ , rather than  $\frac{1}{\sqrt{2f(1-f)}}$ . This error applied to this Figure only; the correct formula was used in the rest of the paper.
2. In the Appendix, “ $2f(1-f) = 1$ ” should be removed.

3. The sentence right after (Daetwyler et al. 2008) (i.e., “Can you find a better reference for this simple result?”) should have been removed.
