Correction to: Biodiversity and Conservation (2019) 28:621–638
<https://doi.org/10.1007/s10531-018-1678-8>

In the first paragraph of page 627, under section ‘Diversity measures and functional composition’, the sentence “Positive or negative SES.MPD/MFD values indicate phylogenetic/functional clustering or overdispersion of species in the fragment, respectively (Webb et al. 2002).” was published incorrectly. The correct sentence should read “Positive or negative SES.MPD/MFD values indicate phylogenetic/functional overdispersion or clustering of species in the fragment, respectively (Webb et al. 2002).”
