The original version of this article unfortunately contained a typesetting mistake in Eq. (1).

The correct Equation is given below:

$$\delta^{15}\text{N}(\text{‰}) = \frac{{}^{15}\text{N}_{\text{sample}}/{}^{14}\text{N}_{\text{sample}} - {}^{15}\text{N}_{\text{reference}}/{}^{14}\text{N}_{\text{reference}}}{{}^{15}\text{N}_{\text{reference}}/{}^{14}\text{N}_{\text{reference}}} \times 1000 \quad (1)$$

The original article has been corrected.
