The BIT foundation has appointed professor Gunilla Kreiss, Uppsala University, new Editor-in-Chief from September 1, 2017. She and I will work together as EIC's during a transition period (probably a year). Gunilla will mainly handle submissions in the differential equations area during the coming year.

I am very happy that Gunilla has accepted to become EIC and I am convinced the BIT will continue to develop positively under her leadership.

Lars Eldén, Co-Editor-in-Chief
