The address supplied for Valerio Carelli in the list of members of the Mito Working Group should read:

Department of Biomedical and Neuromotor Sciences, University of Bologna School of Medicine, Bologna, Italy and IRCCS Institute of Neurological Sciences, Bologna, Italy
The physicians and researchers of the former Hospital Department of Neurosciences of the Local Health Trust of

Bologna (*Azienda Sanitaria Locale di Bologna*) including physicians and clinical researchers of the University of Bologna working at the Hospital Department, are now part of the new Institute of Neurological Sciences of Bologna. This is a new legal denomination of the same clinical institution.

As the Italian IRCCSs receive funds from the Ministry of Health to support their independent research, it is necessary that all researchers provide the correct affiliation when publishing their scientific work.
