Correction to: **Boundary-Layer Meteorology** <https://doi.org/10.1007/s10546-021-00675-5>

In the original publication, the inset figure in Fig. 10b was missed mistakenly. The correct Fig. 10 is provided in this correction.

The original article has been corrected.

The original article can be found online at <https://doi.org/10.1007/s10546-021-00675-5>.

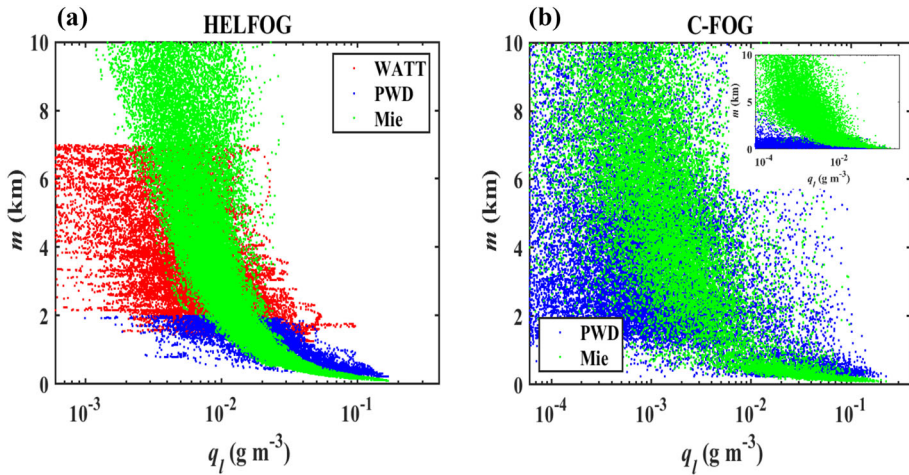

Fig. 10 Variation of visibility (MOR) with LWC (q_l) from (a) HELFOG, and (b) C-FOG fog events. Results from the C6 event are shown in the inset. The blue dots are from the PWD sensors, red from WATT (HELFOG only) and all green dots are results from the Mie calculation. Data shown here are 1-min averages
