Retraction to: Catalysis Letters (2018) 148:2848–2855
<https://doi.org/10.1007/s10562-018-2472-7>

The Editors-in-Chief have retracted this article at the request of the corresponding author. Concerns were raised regarding some figures, specifically:

- Fig. 1a: the FT-IR spectrum for GO-ZnO-SO₃H appears to be highly similar to the FT-IR spectrum for GO-CuO-SO₃H in the same figure, particularly in the spectral noise.
- Fig. 1b: the FT-IR spectrum for GO-ZnO-SO₃H appears to be highly similar to the FT-IR spectrum for GO-CuO-

SO₃H in the same figure, particularly in the spectral noise.

- Fig. 4 shows a number of irregularities.

Prem Felix Siril and Tripti Vats agree to this retraction. Reena D. Souza and Amit Chattree have not responded to correspondence regarding this retraction.

Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
