Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.

There are some errors in Fig. 1. First, owing to a production error, the sub-figure labels a, b, and c were absent in the online version, and the proportion number 55.1% together with its bracket for cell type HeLaS3 were messy in the Fig. 1a. Second, owing to the author error, we inadvertently put the GM12878 heatmap on the position of HeLaS3 in Fig. 1a, rather than the right HeLaS3 heatmap. However, the proportion numbers for HeLaS3 heatmap were correct.

We update Fig. 1 below. The figure correction does not affect the text and conclusion in this paper.
