Table 1 Intense and mild patterns

Intense patterns	Mild patterns
(is / are) x but not y	if not y at least x
(is / are) very x y	not y but x enough
extremely x y	not y (just / merely / only) x
not x (hardly / barely / let alone) y	not y not even x
x (but / yet / though) never y	not y but still very x
x (but / yet / though) hardly y	though not y (at least) x
x (even / perhaps) y	y (very / unbelievably) x
x (perhaps / and) even y	
x (almost / no / if not / sometimes) y	

x and y represent adjectives so that x is **less** intense than y
