Correction to: Climatic Change, 2020, 163, 3, 1267 – 1285
<https://doi.org/10.1007/s10584-020-02854-8>

The notation of Regional Climate Models (RCMs) and Global Circulation Models (GCMs) has been mixed-up in the published manuscript and model names and institutes have not been provided in adequate detail. A lookup table is provided below that relates the incorrect GCM and RCM names in Tables 1 and 3 of the published paper to the correct notations.

Consequently, this affects all occurrences of where climate model names are given in the published paper, though model numbers are not affected (pages 1276, 1277 and 1279). In addition, where the performance of the *DivG* and *DivR* sub-selection methods are highlighted, *DivG* and *DivR* need to be interchanged. This does not affect the conclusions of the original publication. However, the order of the evaluated performance of the *DivG* and *DivR* sub-selection methods requires to be interchanged, where *DivG* is correctly ranked 3rd and *DivR* is ranked 4th.

The online version of the original article can be found at <https://doi.org/10.1007/s10584-020-02854-8>
