Miroslav Fiedler, known worldwide for his contributions to linear algebra and graph theory, also served as the Editor-in-Chief of our journal for many years. He passed away in the morning of last Friday, November 20, peacefully at his home.

Ján Jakubík, Honorary Editor of our journal and its fervent contributor, a renowned expert in universal algebra, passed away on Tuesday November 24 at the age of 92 years, making him one of the longest active Slovak mathematicians.

Both will be remembered not only for all the work they did for our journal and for their brilliant mathematical achievements, but also as colleagues dear to our hearts and our respected friends.
