Correction to: Community Mental Health Journal
<https://doi.org/10.1007/s10597-023-01124-y>

The original version of this article unfortunately contains the same text in Abstract and Introduction section. Therefore, the introduction section should be removed and the correct abstract is given below:

Abstract

Black, Indigenous, and People of Color (BIPOC) communities have weathered centuries of racism, causing transgenerational mental health consequences and hindering access to quality treatment. In this commentary, we describe the systemic challenges of engaging BIPOC to promote mental health equity during the COVID-19 pandemic. We then describe an initiative that illustrates these strategies, provide recommendations and further readings for academic

institutions seeking to partner with community organizations to provide equitable mental health services to populations that have been traditionally overlooked.

The original article has been corrected.
