Correction to: Constraints (2020).

<https://doi.org/10.1007/s10601-020-09315-0>

In the recently published article “The potential of quantum annealing for rapid solution structure identification”, there are a number of small “ticks” that appear in the rendering of the Figs. 2, 3, 4, 5, 6, 7, 8, 9, which should not be there. These figures should be revised. These issues were raised during the proof review process of this article. However, it appears that they were not addressed before proceeding with the publication process. The original article has been corrected.

The online version of the original article can be found at <https://doi.org/10.1007/s10601-020-09315-0>
