Alexa R. Weingarden

Alexa R. Weingarden, M.D., Ph.D., is a first-year gastroenterology fellow at Stanford University. She completed her internal medicine residency training at Stanford and her M.D./Ph.D. at the University of Minnesota, where she studied fecal microbiota transplantation as a treatment for *C. difficile* infection. She intends to continue her research in the gut microbiome in health and disease during fellowship. Her clinical interests include inflammatory bowel disease and women's GI health.
