Joel Gabre, MD, is a third-year and chief gastroenterology fellow at the University of Pennsylvania. He completed his internal medical residency at the University of Cincinnati and medical degree at the University of Maryland. He is currently a T-32 postdoctoral trainee studying molecular mechanisms of Barrett's esophagus and esophageal adenocarcinoma (EAC) through the use of 3D esophageal organoids. After fellowship, he intends to pursue a career as a physician scientist focusing on esophageal cancer biology.
