bowel diseases (IBD), and his research focuses on prediction of IBD complications, comparative effectiveness of biologic agents, and dose optimization of medical therapies for moderate–severe IBD. He received the Fellows in Training Award in IBD from the American College of Gastroenterology in 2020 for his work on ustekinumab dose intensification in Crohn’s disease. Rahul will stay at Brigham and Women’s Hospital to complete an advanced IBD fellowship during the 2022–2023 academic year.
