Corrections are needed to the original version of this article. In Table 2, the “Odds ratio” of the variables “Lower lobe vs. Upper lobe” and “ ≥ 26 vs. < 26 ” should be 2.250 instead of 2250 and 2.250 instead of 2.25.

The authors apologize for the corrections and further state that the changes does not affect the overall outcome of the study. The corrected Table 2 is shown below:

Table 2 Univariate analysis of variables associated with Gr 2 pneumonitis
