Proposition 2 (b) contains a typographical error. It should read as follows:

(b) A reduction in ϕ reduces the management level m^∞ ($dm^\infty/d\phi > 0$) if $\Psi'(m^\infty) > \phi \left(1 - \frac{f'(k^\infty)^2}{f(k^\infty)f''(k^\infty)}\right)$ is satisfied, and increases m^∞ ($dm^\infty/d\phi < 0$) if $\Psi'(m^\infty) < \phi \left(1 - \frac{f'(k^\infty)^2}{f(k^\infty)f''(k^\infty)}\right)$ is satisfied.
