Correction to: Environ Biol Fish
<https://doi.org/10.1007/s10641-021-01187-4>

The original version of this published article contained an error in the third formula (p. 4). The formula used to estimate the age in this study was published as:

$$t = -\frac{\ln \ln(1 - \frac{L_t}{L_\infty})}{K} + t_0$$

However, the formula contained two “ln” components in error. The correct formula to estimate the age has

only one “ln” component. The corrected formula should be presented as:

$$t = -\frac{\ln\left(1 - \frac{L_t}{L_\infty}\right)}{K} + t_0$$
