The original version of this article unfortunately contains some typo in Table 1.

In Table 1, the values of the columns “Full sample” and “By age group” were incorrect because the digits should be in 10s. The correct Table 1 is presented here. The original article has been corrected.

The original article can be found online at <https://doi.org/10.1007/s10643-020-01124-7>.
