DOI 10.1007/s10646-011-0742-x

In the original publication of this article, the circles were not shown in Fig. 1. The circled data points show statistically significant differences in the relative abundance of *Prymnesium parvum* (ANOVA, Tukey's HSD). The correct version of Fig. 1 is provided, where the original graph remains the same and the missing circles have now been included.

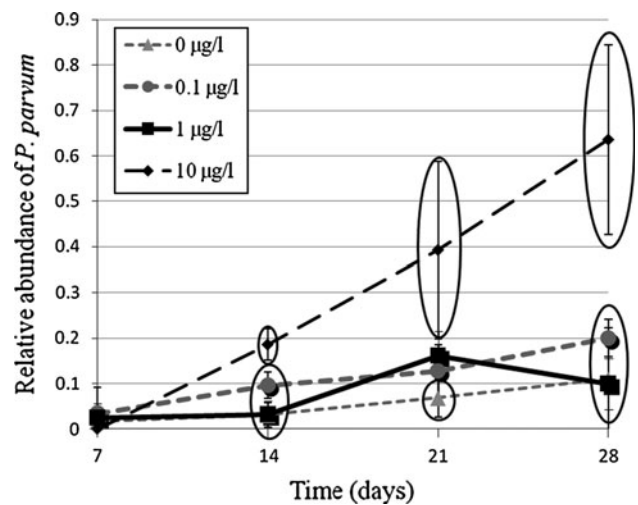

Fig. 1 Relative abundance of *P. parvum* in varying concentrations of atrazine over 4 weeks. Error bars denote ± 1 SD from the mean. All circled data points indicate statistically-significant differences in abundance (ANOVA, Tukey's HSD)
