**Correction to: Educational Studies in Mathematics (2023) 112(1):73–102**  
<https://doi.org/10.1007/s10649-022-10168-y>

The original version of this article unfortunately contained mistake.

In S5 in Figure 1,  $x$  approaches  $x_0$ , not  $h$  approaches zero. Therefore, S5 should read as

$$f'(x_0) = \lim_{x \rightarrow x_0} \frac{f(x) - f(x_0)}{x - x_0}$$

The original article has been corrected.
