DOI 10.1007/s10654-010-9477-x

In the European Journal of Epidemiology 25(8) a printing error occurred in the manuscript concerning the unit of particle number concentration. The correct summary statistics of particle number concentrations (PN) given in the

text and in Table 2, p. 584 is $10^4/l$ instead of $10^4/ml$. Please find the revised Table 2. Since effect estimates of particle number were given per percent increase, results of the regression models in the text, tables and figures are correct as printed in the original publication.

The online version of the original article can be found under doi:[10.1007/s10654-010-9477-x](https://doi.org/10.1007/s10654-010-9477-x).
