**Erratum to: Environ Monit Assess (May 2015) 187, Issue 5:4543  
DOI 10.1007/s10661-015-4543-1**

The original version of this article contained a mistake.

The corrected version of the paragraph is shown below in bold.

A Perkin-Elmer Model A Analyst 700 (Norwalk, CT, USA) flame atomic absorption spectrophotometer was

used for metals analysis. The hollow cathode lamp of Cd and Pb were run under the conditions suggested by the manufacturer. Overall analysis was carried out with an air/acetylene flame, using 10 cm long slot-burner head and without any background correction. The **100 µl** of the samples was injected through self-made injection system of Teflon funnel and Eppendorf Pipette.
