Correction to: Environmental Monitoring and Assessment

<https://doi.org/10.1007/s10661-018-6713-4>

The original version of this article contained an error. The pesticides concentrations units have to be updated to ng/L (nanogram per liter) in the text and partly in Figure 5 (left part). It is confirmed that the overall findings and conclusions of the paper do not change by the update. The updated Figure 5 is presented below.
