Author affiliation to be read as NYU Shanghai as present in original submission.
Original article has been updated.

Acknowledgements I thank Shachar Kariv for invaluable advice and constant support throughout this project. I am grateful to Terri Kneeland for her helpful advice and access to her data and experiment program. I am also grateful to Adam Brandenburger, Stefano Dellavigna, Amanda Friedenberg, Wooyoung Lim, Ryo Okui, and all the seminar participants for helpful discussions and comments. I thank the two anonymous referees for valuable comments. I thank the Xlab at UC Berkeley for their assistance during data collection and the research grant. This project is also supported by the National Science Foundation of China (Grant No. 71703101). All errors are mine.

Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
