The original publication contained an error. Table 6 Number of stars accessible to GIANO/TNG for a given RV precision, the RV precision is in m s^{-1} and not in km s^{-1} . The corrected table is reproduced here.

Table 6 Number of stars accessible to GIANO/TNG for a given RV precision (data based on the 2MASS all-sky catalog of point Sources [10])

H magnitude	RV precision (m s^{-1})	Number of stars (10^4)
5.00	10	3
5.75	20	4.6
6.50	40	5.6
7.50	100	15
